DETAILED ACTION

1. This Office Action acknowledges the applicant's amendment filed 13 March 2006 (held non-compliant), the response to the Notice of Non-Compliant Amendment filed 30 March 2006, and the supplemental amendment filed 8 May 2006. The supplemental amendment of 8 May 2006 is considered to provide the latest version of the claim set.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the back part with no portions extending outwardly of the abutment of the front part must be shown or the feature(s) canceled from the claim(s). No new matter should be entered. Currently, the drawings show a portion of the back part near the hinge extending outwardly of the front part abutment (see bottom portion of Figure 2).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet,

and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 2-10 and 12 are rejected under 35 U.S.C. 112, 1st paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Presuming claims 2-10 are dependent upon claim 12, the original disclosure provides no support for the limitation that, "none of the back part extends outwardly of the abutment of the relieved portion of the front part" as claimed in claim 12. As shown in Figure 2, portions of the back part near the hinge extend beyond the abutment of the

Art Unit: 3728

relieved portion of the front part. Accordingly, this limitation is considered impermissible **new matter**.

5. Claims 2-10 are rejected under 35 U.S.C. 112, 2nd paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-10 are dependent on canceled claim 1. To prosecute the examination of the claims on their merits, the examiner presumes the claims to be dependent on independent claim 12.

Further regarding claim 6, the claim was previously canceled in the amendment of 13 March 2006. Moreover, presuming the claim is dependent on claim 12, claim 6 fails to further limit claim 12.

Allowable Subject Matter

6. Claim 12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

7. Claims 2-5 and 7-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraphs, set forth in this Office action and to include all of the limitations of independent claim 12.

Response to Arguments

8. Applicant's arguments with respect to claims 2-10 and 12 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
